EXPERIENCE

ACCENTURE FEDERAL SERVICES

REMOTE

Senior Salesforce Developer - Grade 8

May 2022 – Present

- Lead two Salesforce implementation teams as the lead developer, managing sprint work and meeting with clients to ensure the application was well architected and deliverables met client needs.
- Brought a scalable, robust CI/CD platform to a large project and facilitated internal and client-facing training for it.
- Mentored junior developers and assisted them with their user stories via code reviews and working sessions.

SALESFORCE (ACUMEN SOLUTIONS)

INDEPENDENCE, OH

Technical Consultant - Grade 5

May 2017 – May 2022

- Worked on numerous projects – most notably, implementations of single enrollment systems for several major cities across the country which currently serve over two million students. These projects were all developed on Salesforce and AWS platforms.
- Contributions to both the company include architecture/code reviews, leading technical training, and interviews.
- Independently managed a team of five developers, providing oversight and guiding career growth.
- Developed full-scale continuous integration system handling automated deployments for eight clients built on GitHub Actions. Conducted training within the project team and wrote extensive technical documentation on the system.

PROGRESSIVE INSURANCE

MAYFIELD, OH

Apps Software Engineer - Intern

June 2016 – August 2016

- Worked two projects – one, to bring new features to their most important breadwinner website, and another to migrate and redesign pages of the same site from Web Forms to MVC.
- Fully participated on a production team for both projects, including code reviews, standups, and milestone meetings.

SHERWIN-WILLIAMS

CLEVELAND, OH

Information Services - Intern

July 2015 – August 2015

- Redesigned three internal-facing websites, including the main landing page, using Bootstrap and migrated them from ASP Classic to ASP.NET.

QUALIFICATIONS

- Experienced in many low and high level languages, including Apex, Java, C, Python, Swift, and Javascript. Comfortable working with these in a production environment.
- Experienced in modern front-end web frameworks and web best practices.
- Platform Developer I and Tableau CRM & Einstein Discovery Consultant certified. Trailhead Ranger.
- Strong experience with all key parts of the Salesforce platform including LWCs, Apex, and Digital Experiences.
- Comprehensive use of Salesforce-related developer tools including SFDX, Jenkins/ANT, and version control systems.
